## Class Poem

Four years we have been climbing  
The long and arduous hill,  
Trying to gain through perseverance  
Higher knowledge, truth and skill.  
Now as we reach the topmost point,  
On the eve of graduation,  
Sweet memories of friendships true  
Bring both sadness and elation.

To our instructors, ever patient,  
We owe more than we can pay,  
For theirs has been the task to mold  
Our minds and characters each day.  
Now as we leave our Alma Mater  
Our hearts with grateful feelings swell,  
Our thoughts to her turn ever fondly  
As we bid her now, farewell.

MARTHA WRIGHT, *Poetess.*

ORAL GENTRY ALLEN  
*Agriculture*  
CARY, NORTH CAROLINA

*"His hair is light, but his mind is lighter."*

Clever imitations of barnyard animals is Oral's chief indulgence. Another one of his pet hobbies is judging seeds. Wonder who will ring the bell next year. Do you suppose it will ring for any one except an Allen? We predict him to be one of the State's leading farmers.

ROCHER HENRY ALLEN  
*Agriculture*  
CARY, NORTH CAROLINA

*"Why do I love her so?"*

Rocher is the serious side of Oral. He is ambitious and somewhat reserved. The agriculture classes could scarcely get along without him. No doubt he will soon be an obedient hen-pecked husband.

Hi-Y, '23; Wood Working Team State Fair, '23; Science Club, '24.

HERMAN COOPER ARMSTRONG  
*Academic*  
RICHMOND, VIRGINIA

*"Ye, yourselves, make way for my artistic temperament."*

Here's to Herman—better known as "Armie"—who hails from John Marshall High School. Football is his favorite sport and as captain of the team last fall he distinguished himself. You may see his artistic ability in the CHSITE.

Captain Football Team, '23; President Calhoun Literary Society, '23; Calhoun Society, '23, '24; Science Club, '24; Art Editor CHSITE, '24.

JOHN REYNOLDS BAUCOM  
*Academic*  
RALEIGH, NORTH CAROLINA

*"Hang sorrow! Care will kill a cat, Therefore, let's be merry."*

Among those who will be most missed at old Cary High School will be Baucum. If he carries the vim through life that he puts in football we know he will be a success. But behind "Johnnie's" athletic ability we find he is very studious.

Calhoun Society, Football, '23; Basketball, '24; Baseball, '24; Track, '24; Science Club, '23, '24; Hi-Y, '23, '24.

VIRGINIA KATIE BUFFALO  
*Teacher Training*  
 RALEIGH, NORTH CAROLINA

*"Her face is a letter of recommendation,  
 And her heart a letter of credit."*

Katie with her sweet disposition is another Teacher Training girl doing good work. She is honest, trustworthy, and the personification of neatness. Although somewhat reserved Katie is ready to do her part in anything.

ELLA ALLENA BUNCH  
*Academic Course*  
 CLAYTON, NORTH CAROLINA

*"Not too serious, not too gay,  
 An up-to-date girl in every way."*

Allena believes in "All learning for more learning, and all growth for more growth." In the activities of the class she is always found doing her part. Allena possesses a brilliant mind; the world can depend upon her.

Girls' Reserve; Lowell Literary Society; Science Club.

GAMALIEL ISABEL COATS  
*Academic*  
 COATS, NORTH CAROLINA

*"That tall, richt guid-looking lassie."*

Although Gamaliel has been with us only a few short months she has become, in a true sense, one of us. She is loyal to her class, to her school, and whatever she believes in she sticks to through thick and thin. Her quiet disposition and smiles have won her many friends, and our good wishes follow her as she enters into the broader fields of life.

Lowell Society; Science Club, '24; Girls' Reserve, '24.

JUDSON WILLIAM COATS  
*Academic*  
 CLAYTON, NORTH CAROLINA

*"Success is sure to be  
 To one so faithful as he."*

Judson, better known as "Sleepy," comes from the suburbs of Auburn. His geometric art is supreme. His Virgil translation like a "jack." We are quite confident he will be one of Cary High's shining alumni.

Clay Society; Vice-President Society, '23; Treasurer Society, '24; Secretary Society, '24; Hi-Y, '24; Science Club, '24; Commencement Marshal, '24.

MYRTLE MAE COOPER  
*Teacher Training*  
 CARY, NORTH CAROLINA

*"Not exactly afraid of work, but rather not be too intimately associated with it."*

Myrtle's looks are deceiving. She looks very much like a saint and was even chosen once to be an angel, but her actions dispute her looks. She is mischievous and jolly too.

Myrtle does good work when she has to, but she does not like it much. Here's hoping her success in her teaching next year.

Lowell Literary Society, '24; Girls' Reserve, '24; Glee Club, '23.

ETHEL COPELAND  
*Teacher Training*  
 CARY, NORTH CAROLINA

*"There's just one in the world for me."*

Ethel came back this year to take the Teacher Training Course, having completed the Home Economics Course in '22. When everything suits her Ethel has a happy-go-lucky air. She adores her friends and will do almost anything for them. Undoubtedly she will be a success as a teacher next year.

EDWIN EARLY DOWELL  
*Agriculture*  
AUBURN, ALABAMA

*"'Tis better to have bluffed and passed  
Than never to have passed at all."*

Eat-'em-up-Bull-Dog is what we heard from the side line during the football season. Ed truly justified this name because he was among the best on the 1923 football squad. Besides being a star in football he is a star in making friends, and that is why we all wish him the very best success this old world affords.

Vice-President Junior Class, '23; Calhoun Society, '23, '24; Chaplain Society, '23, '24; Critic Society, '23; Hi-Y, '23, '24; Delegate Hi-Y, '23, '24; Track Team, '23; Football, '24; Cheer Leader, '24; Science Club, '24.

RACHEL ELIZABETH EATON  
*Teacher Training*  
CANA, NORTH CAROLINA

*"She's lucky, she's kind, sincere and true,  
Quite studious, more generous than any  
of you."*

Rachel's honors are evidence of her ability to lead. She is dependable, never embarrassed, meets every emergency, and always knows the exact thing to do on every occasion. She is a born teacher. She is the greatest reader and story teller in her class. Rachel is a good student and with her determination to win we predict for her a great and successful future.

EUGENE WAHAB EDWARDS  
*Academic*  
BELHAVEN, NORTH CAROLINA

*"Small in stature, but large in everything that makes a friend."*

"Runt" believed his education incomplete without the finishing touch of Cary High, so he came into the class a post-graduate from Belhaven. He is proof of the theory that brain is greater than brawn.

Calhoun Society; Chaplain Society, '24; Treasurer Society, '24; Science Club; Secretary Science Club; Circulating Manager *Echoes*; Hi-Y, '24.

RICHARD HENRY FERGUSON  
*Agriculture*  
NEUSE, NORTH CAROLINA

*"Ignorance has a wide range of probabilities."*

Richard, better known as "Dick" has been with us for the past three years. His high ideals have no end, but his energy is potential. The boys as well as the fairer sex will hate to leave "Dick."

Clay Society; Hi-Y; Football Team, '24; Censor Society, '24.

GEORGE FARINGTON FORD  
*Agriculture*  
CARY, NORTH CAROLINA

*"My only books were women's looks  
and folly's all they taught me."*

Although George has never had a real and truly girl he hopes to have that pleasure in the future. He is athlete enough to win a place as substitute on the football team. If you are ever looking for George you will likely find him hanging around the drug store.

Football Squad, '23.

RUBY CLYDE FRANKLIN  
*Teacher Training*  
RALEIGH, NORTH CAROLINA

*"The girl who wins, is the girl who works,  
The girl who toils while the next one  
shirks."*

Here's to our constant friend and faithful student. All through her High School days she has gone quietly about her work, bothering no one. Her quiet disposition and willingness to oblige has won for her many friends. Ruby is a girl who can be depended upon and one who takes much responsibility. We wish for her a bright and prosperous future, and instead of teaching next year she may be a student in Agriculture at State College.

Lowell Literary Society; President Society, '23; Critic Society, '23; Betterment Marshal, '23, '24; Girls' Reserve; Science Club; Historian Training Class.

PHARES YATES GREEN  
*Academic*  
RALEIGH, NORTH CAROLINA

*"A boy who can't be judged by appearances."*

"Peter," as this long, lean, lanky boy is familiarly called by the boys, is quiet and unassuming, dignified to the point of formality and very studious. As the most ambitious member of the class we are sure he will be a success in the future.

Science Club, '24; Hi-Y.

JULIA ELIZABETH GRIFFIN  
*Teacher Training*  
NEUSE, NORTH CAROLINA

*"Talking, she knew not what nor cared not why."*

Julia Ann is a fine impersonator. She goes crazy about some one, believes what they can do is better than what any one else can do and tries to act like them. She has a strong determination to put across anything she wants. She is always looking for a good time; and where there is any fun or mischief, there may Julia be found.

**MADELINE GLENN HODGE**  
*Home Economics*  
 KNIGHTDALE, NORTH CAROLINA

*"Be what you are and speak what you think."*

If you are looking for some one who can play basketball here she is. Madeline joined us in our junior year and has been an active member of the class ever since. She is one who knows how to keep up with her studies and yet not let them interfere with her social life.

Irving Society; Y. W. C. A., '22, '23; Girls' Reserve, '24; President Girls' Athletic Association, '22, '23; Captain Basketball Team, '22, '23; Basketball Team, '22, '23, '24.

**MARY BELLE HODGE**  
*Teacher Training*  
 KNIGHTDALE, NORTH CAROLINA

*"The race is not always to the swift."*

If you are Mary Belle's friend there is nothing she will not do for you. She is interested in athletics and she starred in the play given by the Irving Society. As a member of the Teacher Training class she is doing good work and we wish her success next year as a school marm.

Irving Literary Society; Basketball, '22, '23; Critic Society, '23; Girls' Reserve, '23, '24; Y. W. C. A., '22, '23.

EMMA DORRIS HONEYCUTT  
*Academic*  
RALEIGH, NORTH CAROLINA

*"What is admired by the human race?  
It's the charming beauty of Dorris' face."*

Sweet, charming and with the utmost simplicity of manner, she early wins her way into the hard hearted hearts. She still possesses many friends, even though she is the beauty of the class. Her cheerfulness and musical ability make her a popular member of the class.

Irving Literary Society; Girls' Reserve.

JAMES MAGRUDER HUNTER  
*Academic*  
TURKEY, NORTH CAROLINA

*"When he will, he will. When he won't  
he won't."*

Of course you know "Turkey"—who doesn't? He is fond of athletics, participating in football, basketball and baseball. As a student, debater and active member of both Class and Society he stands among the first. "We need more articles for the *Echoes*," is his favorite cry.

MARY RODWELL HUNTER  
*Academic*  
 CARY, NORTH CAROLINA

*"We hope some day her melodious voice,  
 Will win for her the man of her choice."*

Here's a cross between a musician and a pharmacist. She has been inclined to music all through her High School days, and again she makes us believe she is going to Carolina to study Pharmacy. Mary Rodwell has distinguished herself as a student, having won the scholarship medal in her Junior year. She is an active society worker, and in her chosen profession we will wish her much success.

MARY LOUISE JOHNSON  
*Teacher Training*  
 HOLLY SPRINGS, NORTH CAROLINA

*"Never too dignified, never too boisterous,  
 but a real good scout."*

Louise is a product inherited—by the Teacher Training Class—six weeks late from Holly Springs. She is somewhat slow, but is a good thinker and possesses a bright mind. Here's hoping her every success as a teacher next year.

Lowell Society; Treasurer of Society, '24; Girls' Reserve, '24.

**ROBERT GLENN JOHNSON**  
*Agriculture*  
 KIPLING, NORTH CAROLINA

*"In any basketball game you see  
 You can hear 'em yelling 'Shoot, P. G.'"*

"P. G." has spent the greater part of the last four years eating wieuers and stuttering. During the basketball season he was one of the outstanding stars. Good luck, "P. G."

**NELL JOHNSON**  
*Home Economics*  
 KIPLING, NORTH CAROLINA

*"Crazy about the boys, well—I should say,  
 But she passes her work in a 'go lucky way."*

Nell is the only one of the dormitory girls who has passed her entire High School days at Cary. How would the Lady Principal get along without her? Nell is truly one of our best athletes and we predict for her a successful future.

JOHN RALPH JOHNSON  
*Academic*  
CLAYTON, NORTH CAROLINA

*"Who loved only one and clave unto her."*

Ralph joined us in our Junior year. During his stay he has proved himself faithful in the various activities of the school. We have always wondered why he liked to read Virgil, especially the love passages. We hope he will have as much success in his college career as he has had at Cary High School and that some day he may attain his highest ambition and be a preacher.

Calhoun Society; Commencement Debater, '23; President Y. M. C. A., '23; Assistant Business Manager of the *Annual*; Vice-President Science Club; Football Team, '23; Secretary Society; Assistant Business Manager of *Echoes*.

THELMA LOUISE JOHNSON  
*Academic*  
GOLDSBORO, NORTH CAROLINA

*"I hate nobody—I'm in charity with the world."*

We surely are glad that Thelma decided to leave Goldsboro and spend her Senior year with us. What would we have done without her athletic ability? She has a good "rep" on our basketball team and we are exceedingly thankful to her for her help. Her "Hello Pete" to every one and appreciation for different phases of life makes her a congenial classmate, ever ready to enjoy a joke on one hand, or to extend her sympathy to some one in trouble on the other. We are hoping Cupid will not interfere too soon in her life and we wish her much joy and happiness.

Lowell Literary Society; Critic Society, '23; President Society, '24; Girls' Reserve, '23, '24; Science Club; Basketball, '23, '24; Circulating Manager *Echoes*; Associate Editor CHSITE; Chief Marshal Commencement.

OTIS GARDNER KING  
*Academic*  
ARCOLA, NORTH CAROLINA

*"Forever foremost in the ranks of fun.  
The laughing herald of the harmless  
pun."*

Who has not envied Otis's optimistic views on every question? When things go wrong he only smiles and becomes more determined. This is one of the characteristics which has made him popular with the faculty and students. Though a lover of fun he takes a keen interest in everything and is especially fond of athletics.

SAM ANDERSON MATTHEWS  
*Academic*  
CARY, NORTH CAROLINA

*"He was a friend indeed  
With all a friend's best virtues."*

As good an all round friend as one can find is Sam. Besides being popular he is a good athlete. His ambition is to be the best and that speaks well for him. Remember, Sam, "Where there's a will, there's a way." We know you have the will—so you are sure to find the way. May your success be the best.

MARTHA VIRGINIA MEDLIN  
*Home Economics*  
 RALEIGH, NORTH CAROLINA

*"The women pardoned all except her face."*

Here is the girl you want to know. Her frank, lovely nature goes straight to the heart of every one and makes friendship a necessity. Martha is quiet, honest, studious and has done good work during her four years with us. She is highly esteemed by all who know her. Her ability for reciting is rarely equaled in Cary High School. Martha's record here assures her of success in the future.

ANNA DORA MOORE  
*Teacher Training*  
 CARY, NORTH CAROLINA

*"Her manners are so pleasing and kindly that she makes friends with all who come in contact with her."*

Dora was born in China—raised almost everywhere. When Dora says she will do a thing you may depend on getting it done, not half way either. She is very faithful. Strange to say she is a great clogger. This, however, is not known to the public—she was selected to represent an angel in the Christmas pageant!

ALLENE PITTARD  
*Academic*  
NELSON, VIRGINIA

*"Two minds with but a single thought."*

Although Allene is not quite so fair as her other half, we can truthfully say she has her beat in disposition. She has won many friends during her stay of eight months at Cary.

Lowell Literary Society; Treasurer of Society, '23; Girls' Reserve, '24.

IRENE PITTARD  
*Academic*  
NELSON, VIRGINIA

*"Two hearts that beat as one."*

Irene is the other half of Allene. When they first came to Cary there was a great deal of embarrassment among the teachers and students when only one of these twins came around, but they realized the difficulty and with their help we have learned tell them apart. We hope there will be no more mistakes on the part of Ralph Johnson as there was at the first of school.

Irving Literary Society; Girls' Reserve, '24.

LULA RUTH RIGGSBEE

*Academic*

MORRISVILLE, NORTH CAROLINA

*"Books are the best of friends."*

Ruth is a good friend and a true patriot of Cary High School. She comes all the way from Morrisville each day to attend our school. She is particularly fond of reading, although it may not always be her school books. She never has a great deal to say, but at the same time we know she is never idle. During the time she has been with us she has made us all like her. We wish her all the success possible in life.

**C**

WALDRON HENRY SHEARON

*Academic*

WAKE FOREST, NORTH CAROLINA

*"For hardy sport in contest bold."*

Can Waldron run? Well just ask a certain boy how fast he ran down Fayetteville Street. He is a record breaker in baseball and a heart breaker with all the girls. Waldron if you are as successful in the world as you have been in capturing the hearts of your class mates and teachers, we predict for you a wonderful future.

KENNETH JUDSON SMITH  
*Agriculture*  
RALEIGH, NORTH CAROLINA

*"Not afraid of work, but not in sympathy with it."*

If a little learning is a dangerous thing, Kenneth is a safe boy to associate with. He has ability for doing anything pertaining to Agriculture. Although fond of athletics his chief pleasure is reading.

Clay Society; Hi-Y.

MARGARET ELISE SMITH  
*Home Economics*  
RALEIGH, NORTH CAROLINA

*"Rare compound of quality, noble and true,*

*With plenty of sense and good humor too."*

Although she is very shy and demure, she is one of the sweetest girls in senior class. She is a favorite among the students and teachers for her ability to work and dependability. She has proven herself to be a great leader.

WILLIAM FELIX WHEELER  
*Academic*  
CASMA, NORTH CAROLINA

*"He seems possessed of potent charms,  
That draw the ladies 'round in swarms."*

No one can say that Felix isn't popular, for he is, especially among the girls. He is a good debater and represented his society in the annual debate last fall. He is also athletically inclined and has taken part in most of the school athletics during the time he has been here. Along with his other good qualities he is a firm believer in turning over new leaves, which is an excellent policy. In view of these things we feel he will find success in life.

ANN STURGEON WILKINSON  
*Academic*  
CARY, NORTH CAROLINA

*"Much has she learned in a little time,  
A better student you'll never find."*

Here's to our Chief! She may look rather small and she is young too, but just think of the knowledge stored away "up there." It isn't there for nothing either—this Annual goes to prove that. And the faculty and the student body knows of her unusual ability to accomplish anything she undertakes. She won the Scholarship Medal in her Freshman year and has given others a close chase all of the years of her high school. If you want to have a good time just go with Ann. We are sure she will make a wonderful student at N. C. C. W. Next year.

Editor-in-Chief CHSITE; Associate Editor Echoes; Science Club.

LEWIS AUBENA WILLIAMS  
*Academic*  
PINK HILL, NORTH CAROLINA

*"Ever willing and capable to do whatever he undertakes."*

Everybody likes Lewis. Who would not with his friendly disposition and ready smile? He is not at all afraid of work as his school work proves. If you were to ask him which of his studies he liked the best, he would probably say science, for he is never happier than when experimenting in the laboratory. With his capability and willing disposition we feel that the future holds much in store for him.

HAROLD DESMOND WILSON  
*Agriculture*  
RALEIGH, NORTH CAROLINA

*"Reward for efficiency is more work—I want less."*

Harold as business manager for the *Echoes* and CHSITE has shown every one that he is a thorough business man. He is always seen with a CHSITE under his arm soliciting subscriptions and advertisements. In judging crops and livestock Harold can't be beaten.

 APEX, NORTH CAROLINA

*"Happy am I, from care I'm free  
 Why aren't they all contented like me?"*

Mildred has been with us all through high school. She has done much better work and has improved a great deal this year. If you want an excellent lesson plan go to Mildred and you will get it. She gives the leaders of the Training class a close chase.

MARTHA ELIZABETH WRIGHT  
*Academic*  
 CARY, NORTH CAROLINA

*"And her modest manner and graceful  
 air,*

*Showed her as good as she was fair."*

Here is a girl who is no tardy loiterer along the paths of knowledge. Martha is one of the youngest members of our class, and one of the best ones too. She is very studious and her manner of attacking anything proves to us she will be a great use to the world. Though very quiet and unassuming she has won the admiration of her classmates with her good judgment and wisdom in all things. She never speaks nor gives her views on things until she has given them due consideration. We are wishing for her all the success possible in anything she undertakes.

## History of the Class of '24

FOUR years ago a group of very bright, sparkling, and briskly moving drops fell from the rock of Graded School into the stream of High School Life, and started on their journey toward the Sea of Graduation.

As we little drops hesitatingly fell from the rock of Graded School, sinking deeply into the stream of High School Life, we found the channel to be rough and rugged, and we knew that many hardships would be encountered on our journey. So we held a council, and selected from our number one particularly brave, big drop named Kermit Ward, who was to be our leader. Under his guidance we started confidently down the stream.

Soon we were joined by the small tributaries of Latin and Algebra, which we found were of stubborn nature and hard to intermingle; but after many laborious and tiresome efforts we succeeded in combining with them. This greatly increased our force, and we flowed over the difficult bed with more confidence than before.

At the end of this rough and stony place we entered upon four months of smoothly flowing over pebbles of vacation. We proudly glided along, with our enjoyment and happiness increasing as we went; but this pleasure was ended when we struck another rough place in the bed.

Seeing fresh difficulties ahead, we called a parley to counsel with each other as to our best course of action. When we counted our number we discovered that many were missing, including our leader of the year before. But we were reassured when we discovered a number of friendly new faces in our midst. Nothing daunted, we selected for our leader a very brisk and efficient drop, Rachel Eaton; and with her in charge, we entered confidently upon our second year of high school.

Here we were joined by new tributaries, Caesar and Biology. The junction with these streams was not so difficult, because we had become accustomed to such tasks; however, our force was greatly increased by these additions. This added strength was sorely needed, for our progress was impeded by huge boulders of extra work and sharp curves of changed courses. Now and then we found ourselves almost incapable of flowing, but finally a smooth place of holiday sands was reached.

This gentle slope lasted only a short while. Soon the cry, "Breakers ahead!" aroused us to action. When we reached the third stretch of rough water we selected an especially strong and robust drop, Waldron Shearon, for our guide. Soon we were joined by the tributaries Cicero, Chemistry and French. Our

Power had been increased by the former additions to such a degree that the task of joining these was accomplished with ease. We overcame our difficulties magnificently and won many honors. Other groups of drops in the stream were forced to admit our superiority. The year flew swiftly by, and we were soon enjoying four months of happily gliding over pleasure pebbles; our last high school life vacation.

Now we knew that only one more stretch of tortuous channel lay between us and our long-hoped-for destination, the calm Sea of Graduation. Soon we were involved in the difficulties of this last passage, and it was not long until we realized that it was in many ways the most difficult of all. On our left was the greedy sucking whirlpool of Back Work, from which there were many narrow escapes. Frightful monsters of Special Work and Extra Tests swam through the swirling current. On the right were two great boulders, called Athletics and Honors, against which we dashed with animation, but which delayed our progress toward our goal. We learned, to our regret, that there were two outlets to the sea; the main channel of Diploma, and the special canal of Certificate. Soon we were divided into two groups, one for each route. Then we entered the last terrific gorge, called Final Examinations. Eddies, whirlpools, and cross currents tossed us from side to side until we were dizzy, lost, and distracted. But at the end we came suddenly into smooth and smiling waters, and when we sighted the beautiful lighthouse of Passing Marks we knew that we had at last reached our goal.

Then the captain of our group, Otis King, called us together for the last time. We found that many of our original group had been lost, but their places had been taken by others along the way. Throughout the trip our party had maintained its firm union, and had gained strength from each new difficulty. Looking back over our long journey, our hardships dwindled away, and what had seemed like painful experiences along the way were now remembered with pleasure. Now that we had reached our long desired destination, it was hard to realize that the daring journey which we had started four years before had been completed. But now we know that our days in the River of High School Life are over, and soon we shall go each one his separate way to take up the greater duties we shall find in the broad Sea of Life.

COUNTY OF WAKE (NOT SLEEP) }  
 CITY OF CARY } CARY HIGH SCHOOL  
 STATE OF NORTH CAROLINA }

**W**E, the Class of 1924 of the aforesaid State, County, City and School, have after many hardships, through joys and sorrows, reached the dignified position as seniors. We, "feeling" that we are nearing the end, thinking ourselves to be sound of mind, do hereby draw up this last will and testament.

## SECTION ONE

ARTICLE I. To our mothers and fathers we will our fondest gratitude and deepest appreciations for the privilege of attending school during the past years.

ART. II. To the town of Cary we leave our heartfelt thanks for the support she has given the school.

ART. III. To Professor Dry we bequeath our note of thanks for his untiring efforts to teach us the highest ideal. In addition we bequeath him a Geometry class that will know how to bisect a line.

## SECTION TWO

ARTICLE I. To Mr. Roller we will a group of boys who will not go to Raleigh Friday nights without permission.

ART. II. To Mrs. Dry the boarding students leave their thanks for the "good eats" we have had during our stay at Cary, especially the Sunday dinner chicken.

ART. III. To Miss Calvert goes a History IV class that will not flunk all examinations.

ART. IV. To Messrs Meekins and Raper a note of thanks for the development of "chicken farming" in and around Cary. Also an Agriculture class that will go on class at least once a week.

ART. V. To Misses Thornton and Buttery we will a Home Economics class that is capable of making good soup.

ART. VI. To Mr. Ezell we will the exclusive right to flirt with the High School girls.

ART. VII. To Miss Nichols we will a Latin III class that will not take "ponies" on class. Also a French class that will know how to conjugate French verbs.

ART. VIII. To Miss King we will a Chemistry class that can tell the difference between  $H_2O$  and  $H_2SO_4$ .

ART. IX. To Misses Lindsay and Coats we will a Music class that knows the musical alphabet extends only through the letter Z.

ART. X. To Miss Mathewson goes a student body that will always stand up to sing.

## SECTION THREE

ARTICLE I. To the Junior Class we will our Senior dignity and also we leave them the task of getting out the Annual next year.

ART. II. To the Sophomore Class we leave a bunch of fresh Freshmen.

## SECTION FOUR

ARTICLE I. To Newman Knott we will Otis King's front seat on History IV. James Satterwhite will receive a complete beauty shop. To Wayland Rhodes goes "P. G." Johnson's beauty. Gilbert Fonville is to get Ed Dowell's wonderful voice, so he can make a future Caruso. To Paul Poole goes Oral Allen's variety of noises. Felix Wheeler is to receive the power of being President of the United States when he becomes of age. To Floyd Poole goes Ralph Johnson's ability to make love at supper. John Baucom's Latin pony is to go to Bernard Smith. Rosa Pleasants will receive Ruby Franklin's dignity. Virginia Kirkpatrick will receive Ann Wilkinson's ability as a student. James Carter will get a large pair of trousers so he will be in style. The boarding girls desire to will Miss Calvert a pair of rubber heels so she will not disturb study when she goes up the hall.

## Senior Class Prophecy

ON the morning of April 18, 1944, I was aroused from a reverie by a loud knocking at my door. Upon answering the summons, I found in the hallway an aged gypsy woman. Thinking her to be a beggar, I was about to send her away with a coin, when something about her caused me to hesitate. In answer to my questions she informed me that she was hungry; furthermore, she stated that she would be glad to repay me for a meal by giving me any desired information about my absent friends.

While she was eating I remembered that this was the twentieth anniversary of my graduation from Cary High School. I immediately decided to ask her about my friends of the class of twenty-four. To my surprise, she divined my question without my asking it; for, after finishing her meal, she began talking in an abstracted manner, seemingly unconscious of my presence.

"I see Oral and Rocher Allen in their huge store in Raleigh, North Carolina. It took them only three years to change the name of the firm from 'Hudson-Bek' to 'Allen Brothers.'

"Robert Atkins has a log cabin in Alaska, which serves the double purpose of a hunting lodge and a retreat for writing his adventure stories. Herman Armstrong, having studied art in Europe, has won world-wide recognition by his flattering portrait of the Queen of the Netherlands. Rachel Eaton and Margaret Smith, having freed the country from the two great menaces of mashers and cigarettes, have moved to conquer new fields."

The old woman was silent for a time, but before I could formulate a question she continued.

"Allena Bunch is now the heavy-weight wrestling champion of the world, having strangled Strangler Lewis into submission. She is the first feminine holder of the title, and is considered the greatest of all time. John Baucom is establishing a reputation around Clayton as a quack doctor; however, he does not confine his practice entirely to ducks. Mary Rodwell Hunter, Martha Wright, Martha Medlin and Ann Wilkinson have very successfully performed a second Brook Farm experiment. They contribute stories, poems and essays to the leading magazines; and their plays have had long runs in the theaters of Apex. The scene of their present activities is in New York state, but they are considering moving to Salt Lake City, because, being so much of one mind, they feel that they must all marry the same man.

"Phares Green and Judson Coats are missionaries and teachers in Africa. It is said that they are casting a light upon the dark continent. Harold Wilson is now a busy man of affairs, spending most of his time promoting real estate deals in Rhamkatte. Kenneth Smith and Lewis Williams now occupy the places in the automobile industry once held by Hupp and Ford. Richard Ferguson is the world's champion tobacco spitter, having won his title in the last national tournament by hitting a gnat in the eye ninety-nine times out of a possible hundred, at twenty paces. Wahab Edwards underwent a monkey gland operation, and has grown so much that you would not recognize him as the runt of the class of twenty-four. Gamaliel Coats looks up at her elongated husband with pardonable pride."

The gypsy paused, and asked for a drink of water. She seemed to be weary, but the water revived her and she continued her story, speaking in an even monotone.

"Ruby Franklin, Katie Buffalo, and Mildred Wood have built up a large high school at McCullers, N. C. Ruth Riggsbee is sole proprietor of the only hospital for mentally unbalanced cats in North Carolina. Ralph Johnson and Irene Pittard are happily married. Allene, the other half, lives with them and helps them with the upbringing of their red-headed children. Geneva Yeargan is now a noted pianist and composer, and is hailed with delight in the great European cities. To satisfy their yearning for excitement, Madeline Hodge and Nell Johnson have moved from staid United States into the turmoil of Mexico. Felix Wheeler, having failed to discover any other use for his line, is now a minister of the gospel.

Irvin Jackson and Glenn Johnson have gained much fame as chemists. Their greatest triumph was the invention of a preparation that annihilated the boll weevil. Dorris Honeycutt and Thelma Johnson were successful newspaper correspondents until the golf bug got them; now they spend most of their time on the links. Fay Morgan and Dora Moore are touring Asia. Their purpose is not known, but it is thought that it concerns the rebellion in India.

"Waldron Shearon and Edwin Dowell now operate Andrews Fruit Store, and the Cary High School boys still go there for their wieners. The proprietors have acquired a pronounced Greek accent. Julia Griffin has established a day school at Knightdale. Lillian Pierce and Mary Belle Hodge are employed by the state of North Carolina to lecture on fire prevention in the public schools. Otis King and James Hunter are biologists and naturalists. They have written several books on bird and plant life. Ethel Copeland is the chief customs officer of the port of New York. Her assistant is Meroe Stone."

During the latter part of her speech the old lady arose and placed her hands on my shoulders. When she had finished she left precipitately. Later in the day when I started to pay the milkman, my purse was missing. I thought of calling the police, but upon second thought I decided to let the matter end there; for, just as in my high school days, there was not enough money in it to pay her for the hour's entertainment.

## Department of Agriculture

### AGRICULTURE CLASS

**I**N order that the future farming generation shall, through more up-to-date methods, be able to produce more, sell better and be the more enabled to live happy and better under such conditions, the Department of Agriculture in Cary High School was established. And it is accomplishing its purpose, for out of the beginning with a few boys, books and no equipment, of nine years ago has grown a real, wide awake department of vocational agriculture which trains fifty or more boys annually to become better farmers. The department also serves as demonstration school for agriculture in the State and the students of State College find it fitting to use as a school for practice teaching.

Crops and Soils, Animal Husbandry, Horticulture, Farm Management and Farm Shop Work are all taught in a thorough practical way to the students in school and the work reaches out in the community as well, where personal and organized work is done among the farmers.

A great deal of interest is taken each year by the students at the State Fair in Crops and Livestock Judging, and honors are usually brought back. Two years ago both of the "silver cups" were won and this year it will be remembered that Kenneth Smith, Harold Wilson and George Ford brought away the white ribbon in Livestock Judging, and Irvin Jackson, Glenn Johnson and Jerome Seymour got honorable mention by being well on toward the top.

Space and equipment of course are necessary in teaching this science and a plenty of both will be found in our new Walter Hines Page Building for Vocational Education.

Growing! Of course the work is growing because our cause is right. Agriculture, the foundation of future commerce, must be better organized and more efficient, and our agricultural students will be a great asset toward bringing this to pass.

## A Class in Physical Culture

The year 1923 saw the beginning of a new department, Physical Training, which has proved to be a great benefit to the school. The work covers everything from marching and running to tumbling, including tactics developed to tactics of a body of ranks; club, wand and dumb-bell drills; dancing, free gymnastics and games.

The boys and girls show very much interest in the work, and seem to enjoy it. As a climax of the work accomplished, a small gymnastic exhibition will be given in March, representing every phase of the work. It is expected that this department, so well begun by Miss Crow, will be continued next year.

Front Row—Substitutes: Ferguson, Ford, Jackson, Dry, Curtis, Wilson, Estes, G. Johnson.

Through the earnest efforts of Coach Ezell and others interested in the sport, and by virtue of financial assistance from the school board, football was established in Cary High during the past season. Mr. Julian Baum, a former N. C. State star, was engaged as special football coach, and it is due largely to his earnest efforts and expert advice that the inexperienced team made such a good showing. They played Selma on even terms, but lost 13 to 6. The N. C. State Freshmen walked away with the second game, but the following week Cary tasted the joys of victory when they outplayed the strong Buies Creek Academy eleven and won 6 to 0. In the last game the team made a splendid showing against Sanford, eastern North Carolina champions. Cary was leading at the beginning of the final quarter, 7 to 6, but the Sanford coach rushed in his reserve and the fresh team made two more touchdowns.

## Basketball Squad

Front Row: Shearon, *Manager*; Matthews, *Forward*; Baucom, *Center*; Estes, *Captain, Forward*; King, *Guard*; Johnson, *Guard*; Ezell, *Coach*.

Second Row: Williams, *Guard*; Houston, *Forward*; Hunter, *Forward*; Wheeler, *Guard*.

When the basketball season opened prospects for a winning team were not very good. Only one man from last year's squad reported for practice. Lack of an indoor court delayed the development of the team, but soon their hard and faithful work began to show results in games won. The team was good on the offensive, but even better on the defensive. When the State Championship series began the squad was at top form. They eliminated Stovall in the first round and Creedmoor in the second. Durham then put Cary out of the running in a hardfought game for the group championship. At the time of going to press Durham is battling for the State title. Record Championship games:

### Promising Candidates for the 1924 Baseball Team

The baseball candidates have been out for one week, at the time the annual goes to press. Prospects are very good for a winning team this year. Although Sorrell, last year's great pitcher, is now at Wake Forest College, a worthy substitute should be found among the four candidates for the mound position. Waldron Shearon, captain, will be out for his old position behind the plate. Other likely looking candidates are Baucom, Armstrong, Johnson, King, Jackson, Knott, Satterwhite, Wheeler, Womble, and numerous others. James M. Hunter is manager of the team.

On the whole there seems to be even more interest than usual in baseball at Cary High, and if hard work and determination count for anything Cary will have another smooth-working diamond outfit this season.

## Science Club

THIS is the first year that a Science Club has been an active organization of Cary High School. The Science Club was organized after some very good campaigning by Mr. Roller and Miss King on Monday, November the twenty-sixth, 1923.

Since the organization became an active group of the school it has done much in furthering interest in the various branches of Science of the school. The programs consist of different scientific subjects, such as inventions, old and new, possibilities of the future, questions which tend to keep us in touch with the rapid strides in Science as well as many other topics, both interesting and beneficial.

On one occasion Mr. C. S. Brimley of Raleigh, who is noted for his study of nature, visited the club and made a very interesting talk on birds. His lecture was accompanied by paintings of birds in their natural environment and many mounted birds of different species.

The Club has two members of the faculty as members: Miss King, instructor of Chemistry, and Mr. Roller, instructor of Physics and Biology. Both Miss King and Mr. Roller attend every meeting and seem to forget that they are members of the faculty and join with the young people in improving the Club.

After considering that this is the first year in the history of the School that such activities have been pursued by students of Science as an organization of this kind we will have to admit to our delight, that the club has been more successful than we hoped for.

We hope that the zeal and interest of the students will not die and that the Science Club will be organized again next year and build to the very strong foundation that has been founded this year.

## You've Heard 'em Before

ARMSTRONG: "What is an isthmus?"  
 WILLIAMS: "A neck of dirt."  
 ARMSTRONG: "Then go wash your isthmus."

MARTHA WRIGHT: "What makes the Tower of Pisa lean?"  
 MARY RODWELL HUNTER (Hopelessly): "If only I knew, I would take some of it!"

FATTY (On awaking): "I have a splinter in my hand, it was in there when I woke up."  
 SKINNY (Turning over sleepily): "Aw, g'wan to sleep, you have just been scratching your head."

SASSER: "What is the spinal column?"  
 COATS: "It's a bone in your back. Your head sits on one end and you sit on the other."

Mr. Roller and Miss King were having a heated argument concerning chemistry formulas.  
 MISS NICHOLS (Not wishing to be left out): "Pass the NaCl."  
 MR. EZELL (Stirring vigorously): "My coffee is as hot as HEL<sub>2</sub>."

FLETCHER: "I can tell you how much water flows under Brooklyn Bridge, to a quart."  
 ALEX: "How much?"  
 FLETCHER: "Two pints."

MARGARET SCOTT: "Miss Thornton, what do you think of a person who would get up at midnight and ride the rest of the night?"  
 MISS THORNTON: "He would be crazy. Who did it?"  
 MARGARET SCOTT: "Paul Revere."

CARTER: "A dog fills an empty space in a man's life."  
 EDWARDS: "That is especially true of the hot-dog."

MR. TEMPLETON: "Mr. Roller, you are wanted no longer at this institution."  
 MR. ROLLER: "Er-er why is that?"  
 MR. TEMPLETON: "You are long enough."

OTIS KING: "I fell off a sixty-foot ladder today."  
 BAUCOM: "It's a miracle that you weren't killed."  
 KING: "I only fell off the first round."

We congratulate Mr. Meekins on his rare judgment in fitting the halters made by the Agriculture Classes on Glenn Johnson. Should they make any saddles, we heartily recommend Vallen Estes for a model.

HESTER (seeing his first basketball game): "How can they expect the ball to stay in that basket when the whole bottom is busted out?"

PREACHER (Dramatically): "Yes—"  
 CAT. JONES (Absent-mindedly): "We have no bananas."

### WHO SAYS:

"I want to see the following persons."  
 "SOUP."  
 "All right now, everybody!"  
 "How came you to do it?"  
 "Now everybody get your books."  
 "Take these questions, please."  
 "Er—er—er—"  
 "As you all know."

If ignorance is bliss, we know why the Freshmen are so happy.

MISS CROW: "What are you doing?"  
 MELZA MORGAN: "Nothing."  
 MISS CROW: "Don't do it so loud next time."

RED SMITH (adoringly): "It must be grand to know—Oh!—everything!"  
 MR. ROLLER (ehestily): "It is."

RACHEL EATON (In store in Raleigh): "I want to see some muffs."  
 CLERK: "What fur?"  
 RACHEL: "None of your business, Freshie."

MISS BUTTERY (in a hardware store): "I want one of those new-fangled oil dome teapots."

MISS NICHOLS (trying to explain the meaning of *swain*): "Now if a milkmaid were on one side of the fence, what would be on the other?"  
 NELL JOHNSON (exitedly): "The cow!"

Satterwhite was discovered under the showers, singing in a loud voice, "I am a stranger here, within a foreign land."

A bed bug is a funny critter  
His actions are queer and quaint  
Try to scratch him where he is  
And there by-gosh he ain't.

She rent the air with a piercing note,  
She'd found a hair upon his coat;  
Her poor heart bled with grave concern,  
The hair was red and wasn't hern.

A sailor sat on Maude's dark porch,  
But I could plainly see  
The eagle on the sailor's sleeve  
And the chicken on his knee.

WILLIE: "Mamma, do cats go to heaven?"  
MRS. DRY: "No. Why do you ask?"  
WILLIE: "I just wondered where the angels  
got strings for their harps."

## THINGS WE KNOW BUT AREN'T GOING TO TELL

Who murdered Luke.

What the Governor of North Carolina said to  
the Governor of South Carolina.

Why Mr. Ezell's hat is so often found on a  
certain piano.

Where Mr. Roller goes on Thursday nights.

Why everybody flunks history.

How some girls pass English.

Where Mr. Dry got the muffler he was so  
anxious to be rid of.

Who is Queen of the Movies.

Why Cat. Jones is so fond of Vol. XVII.

The secret of Miss Passmore's schoolgirl com-  
plexion.

What makes Freshmen foolish.

Why Ralph Butt's room rent was reduced.

Why this section is so rotten.

If you can improve it,  
use this space.

Miss Calvert, finding Paul Poole eating at table  
E, commanded him in a very distinct and per-  
emptory tone, "Go to H, where you belong."

MR. EZELL: "Who defeated the Saxons?"  
WALDRON SHEARON: "Dunno. I don't fol-  
low none 'o them bush league teams."

MARTHA MEDLIN: "How can I keep my toes  
from going to sleep?"  
HAROLD MILSON: "Don't let 'em turn in."

Rosa Pleasants to Miss King: "If hard water  
were boiled, would it get hard-boiled?"

ALLEN: "How much do you weigh?"  
DOWELL: "175 pounds."  
ALLEN: "You must have weighed with your  
coat on."  
DOWELL: "You're crazy! I held it on my  
arm."

Adam was the first man, also the most original.  
Eve was chased out of the garden because she  
ate Adam's-apple.

MADÉLINE HODGE: "What's the matter with  
your room-mate?"  
FERGUSON: "I think the doctor said it was  
delirious tremblins."

MRS. BLALOCK: "After what battle did Gen-  
eral Wolfe say, 'I die happy!'"  
ETHEL COPELAND: "I think it was his last  
one."

NOTE: Don't kick if you have read these jokes  
before. We have too.

## An Appreciation

Following a standard set by the Class of '15, the Senior Class submits this, the tenth volume, of the CHSITE to you. We hope that it is as good as the preceding annuals, or even better—that is for you to decide.

Although the CHSITE is mainly the work of students, we have received valuable assistance from other sources. We express our appreciation to the members of the faculty for their help with the write-ups; to the school committee, and to all others who have helped us in any way. We are especially grateful to the good firms, the wide awake business organizations, who have advertised with us, and we regret that we could not give advertising space to all who applied.

---

One of the State's leading high schools with modern equipment. Main building contains 33 rooms and is valued at \$85,000. New Vocational building with sixteen rooms costing \$45,000. Two brick dormitories valued at \$60,000. Other buildings on the campus bring the total value of the school plant up to \$200,000.

All buildings are steam heated and lighted by electricity.

Complete equipment for teaching cooking and sewing, agriculture, typewriting and stenography, music, art, science, normal training.

The teaching force contains six men and nineteen women selected from the leading colleges of the country.

Ample boarding facilities are provided for both teachers and pupils in a common boarding hall in basement of main building.

The dormitories have every modern convenience as steam heat, electric lights, shower and tub baths, single beds, etc.

The Cary High School was the first State high school established in North Carolina. It enrolls more pupils than any other rural high school in the State.
